1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

IN THE SPECIFICATION

To clarify the record it is noted that the first line of the specification indicating the continuity data reads as follows:

--This is a continuation application of United States Patent Application Serial No. 09/933,669 filed August 22, 2001, now abandoned.--

IN THE CLAIMS

The status identifier for the cancelled claims 1-12 has been corrected. These claims have all been previously cancelled, but the response to the previous Office Action did not have a correct status identifier. Note, no amendments have been made to the pending claims 13-16.

Claims 1-12 (cancelled)

Art Unit: 1722

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest a mold for producing shaped concrete bodies as defined in claim 13, as is generally indicated in the previous Office Action. It is additionally noted that newly cited reference of Huber et al. (U.S. Pat. No. 3,932,098) also fails to teach or suggest a mold as defined in the claims of the instant application. Huber discloses a case assembly with inserts for a ceramic tile die. Huber does not teach or suggest the combination of a projecting pin with polygonal cross section, polygonal recess, and locking screw as recited in claim 1. Huber also fails to teach or suggest a means on the outer faces of the transverse frame members for attaching to a molding machine as recited in claim 1. Note, this limitation has been construed as invoking 35 U.S.C. § 112, sixth paragraph, and thereby limited to the corresponding structure described in the specification and equivalents thereof. In re Donaldson, 16 F.3d 1189, 1194, 29 USPQ2d 1845, 1850 (Fed. Cir. 1994); MPEP § 2181. In this case, the specification of the instant application defines a means for attaching at p. 9. lines 13-20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donald Heckenberg whose telephone number is (571) 272-1131. The examiner can normally be reached on Monday through Friday from 9:30 A.M. to 6:00 P.M.
